Self-Selected Contribution Assignments

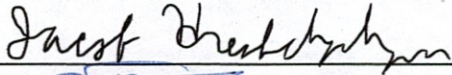

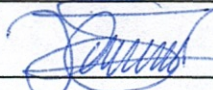

Undergraduate Teaching Assistants (UGTAs) will have the choice of personal contributions that they can complete as part of their position as an assistant. Choices can be selected more than once, as long as each implementation is unique. A small summary of the activity will be required to be turned in as proof of completion. You may use activities from previous semesters, so long as your summary is reflective of this semester's implementation. Please refer to the *UGTA Quick Reference Guide* for brief explanations of each assignment, or Canvas for the full details. These selections may change throughout the semester if needed but must be approved by the instructor and the FSE 201 faculty, who shall be notified of any changes via email.

Total of selections must be equal to at least 4 points for Session C students, and at least 2 points for Session A or B students. Any less than that and the contract will be denied by FSE 201 staff. Your professor may require more contributions, however you are only required to turn in the minimum point value (4 for C, 2 for A/B).
